THE UNIVERSITY OF TEXAS AT AUSTIN
Report 12 (part 2)**

STUDENT FLOW

**TEXAS HIGH SCHOOL GRADUATES
SUMMER AND FALL ENTERING FRESHMEN
ACADEMIC YEARS 1999-2008**

Prepared by:

**The Office of Admissions
The University of Texas at Austin**

Introduction

One of the concerns expressed during emotional debates over the Texas Automatic Admissions Law (HB 588), otherwise called the “Top 10% Law,” was that large numbers of students were being encouraged to reach beyond their academic ability, apply to UT Austin, and be automatically admitted. This often led to predictions of lower retention and graduation rates.

At the University of Texas one-year persistence is defined as the percent of students who returned for their sophomore year and were enrolled on the 12th Class Day of the fall semester. And of course, two-year persistence is the percent of students enrolling the following fall.

This paper is designed to present simple, descriptive statistics relative to graduates of Texas high schools matriculating as entering freshmen from 1999-2008. This is not a position paper. It is not an evaluation of past or present affirmative action policies. It is not a proposed blueprint for other universities or public institutions seeking diversity. It is not representative of the higher education experience in all of Texas.

Methodology

The students selected for this study are the same as cohorts studied in Volume 1 of this report. This is limited to entering freshmen from Texas high schools for the summer/fall semesters from 1999 through 2008. Since the cohorts are filtered to exclude all but graduates of Texas high schools, i.e., the group eligible for the top 10% entitlement, persistence and graduation rates will not match exactly what is reported by the Office of Institutional Research (now called the Office of Information Management and Analysis) in its *Statistical Handbook*, which includes all entering freshmen. Table 1 below provides the n-counts used in the tables that follow. The American Indian, International, and “unknown” groups are excluded due to low n-counts. Table 2, however, illustrates whole entering classes from Texas high schools and thus includes those groups.

In Tables 2-7 a student is counted as “continuing” if he/she had courses listed in the next and following fall semesters. During these “snapshots” a check was made to determine if an individual had graduated.
